German keyboard, English layout

When the test software switches to English (US), the keys no longer type what is printed on them. Use this sheet to find the right key.

1 · The English (US) keyboard

2 key alone **@** with Shift

2 · Your German keyboard in English mode

small grey = printed on your key ' big = what it types " = with Shift ▢ types something different from the print

AltGr combinations do not work in English mode: no @ on Q, no € on E, no { [ ] } \ on 7 8 9 0 ß. Ä, Ö, Ü and ß cannot be typed at all.

3 · Quick lookup: I need this character, which German key do I press?

'	APOSTROPHE Ä	"	QUOTATION MARKS Shift + Ä	?	QUESTION MARK Shift + – (minus key)	/	SLASH – (minus key)
-	HYPHEN ß	_	UNDERSCORE Shift + ß	;	SEMICOLON Ö	:	COLON Shift + Ö
y	LETTER Y Z	z	LETTER Z Y	(	OPEN BRACKET Shift + 9	)	CLOSE BRACKET Shift + 0
@	AT SIGN Shift + 2	&	AMPERSAND Shift + 7	*	ASTERISK Shift + 8	#	HASH Shift + 3
=	EQUALS ´ (accent key)	+	PLUS Shift + ´	<	LESS THAN Shift + ,	>	GREATER THAN Shift + .
[	SQUARE BRACKET Ü	]	SQUARE BRACKET + (plus key)	\	BACKSLASH # (hash key)	! $ %	UNCHANGED Shift + 1 / 4 / 5
